Audit Access Expires May 11, 2020
You lose all access to this course, including your progress, on May 11, 2020. Upgrade by Mar 25, 2020 to get unlimited access to the course as long as it exists on the site. **Upgrade now**

1. Objectives

Convolutional neural networks (CNNs)

At the end of this lecture, you will be able to

- Know the differences between feed-forward and Convolutional neural networks (CNNs).

- Implement the key parts in the CNNs, including **convolution** , **max pooling** units.

- Determine the dimension of each channel in different layers with a given CNNs.

Discussion

[**Hide Discussion**]

Topic: Unit 3 Neural networks (2.5 weeks):Lecture 12. Convolutional Neural Networks / 1. Objectives
